Final Daily Power System Status Restoration
99% System Load Restoration Achieved

(Fadian, Mangilao) – GPA continues its post-Typhoon Champi power restoration process, with 99% system load achieved and is now concluding the daily reporting of power system status restoration updates. **Crews continue to address ALL isolated typhoon-related power issues and outages in the Northern, Central, and Southern sectors throughout the island.** This includes all customers reporting power failures or intermittencies due to power fluctuations, low/high voltage, single phasing, etc. while closing out emergency work clearances that require customer-side repairs.

During this stage of recovery, key priorities include addressing power quality issues and streetlight issues to help ensure safer, well-lit roadways as the island prepares for Halloween festivities for children and families. To report needed streetlight repairs, please contact GPA's Customer Call Center at (671) 647-5787/88/89, email at customersfirst@gpagwa.com or send a direct message to GPA's Facebook page. Please provide address and location.

Customers may report emergency power issues to GPA Dispatch at (671) 475-1472/3/4.

GPA's continued priority is to restore energy back into your homes and businesses, and return the island-wide power system (IWPS) online at full capacity.

Si Yu'os Ma'åse' for your patience and support.

The GPA Customer Service Call Center, Customers First email, and Facebook Direct Messenger will remain available daily from 8:00 a.m. to 8:00 p.m. through Friday, October 23, 2026, to assist customers with Typhoon Champi related concerns.

GPWA Upper Tumon Office remains open on Saturdays from 8:00 am – 12:00 pm.

Customers who are without power or are experiencing power quality issues are encouraged to contact the GPA Customer Service Call Center to report these issues so they can be addressed as quickly as possible.

Customers who have completed Emergency Work Clearances should contact the GPA Customer Service Call Center or GPA Dispatch to request power reconnection.
